The ailments of most people are largely self-indulged; and he who would retain good health must not get into habit of not feel well. The slight headache or rather trifling indisposition which hangs over most persons on arising in the morning can be quickly banished by exerting the will power and looking on the good side of things.

The question of closing all stores in Deming at 6 p. m. during the summer is being agitated by all clerks as the hours of work are long and tiresome during the hot weather, for those who are housed up in stores and shops from morn till night, and no one deserves rest more than the clerks. In many places this is a regular custom and we think it should be here.

Our old friend George Newland, the printer tourist, who is known in nearly every office in the southwest, arrived in town last Friday and spent the day with us leaving Saturday for a short trip through the Mimbres valley and a visit to Silver City.

"There should be but one act upon our statute books under which public lands can be acquired, and that one act should be a genuine homestead act which imposes a residence of five years and continuous cultivation of the soil—an act having no commutation provision attached to it."

Going up.

We were given an opportunity to examine a sheet showing the advance in prices of Deming lots during the past twelve months, and we find that during the first seven months the increase was from \$20 to \$50, while during the past five months they have gone up to \$100, this showing a very pleasing advance in values and the price is yet low and will doubtless advance much more rapidly during the next year than the past.

Back to New Mexico.

A letter from a former New Mexico man who has spent the past year in the northwest and is now at Salt Lake City says that he is headed for Deming and that he considers New Mexico the best place he has seen. This is the way they generally wind up when they leave this territory looking for something better. New Mexico don't boom but she furnishes a comfortable living for her citizens and mere existence in this climate and scenery is a luxury.

Widening Their Range.

A report comes that the Victoria Land and Cattle Co., has purchased the Armendarces land grants in Socorro and Sierra counties, containing 495,000 acres and will add this large tract to their all ready extensive cattle ranges in this section of the country. The tract is situated in one of the best grazing regions in this part of the territory and is a valuable acquisition for the

Victoria company. Rev. Father Morin said mass at the Catholic church here Monday morning.

White's Cream Vermifuge has achieved a world wide reputation as being the best of all worm destroyers, and for its tonic influence on weak and unthrifty children, as it neutralizes the acidity or soreness of the stomach, improves the digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirit natural to children. 25c at J. P. Byron & Son.

Epitaphs in Cemetery of Failure.

He lacked tact.
Worry killed him.
He was too sensitive.
He couldn't say "No."
He did not find his place.
A little success paralyzed him.
He did not care how he looked.
He did not guard his weak point.
He was too proud to take advice.
He did not fall in love with his work.
He got into a rut and couldn't get out.
He did not learn to do things to a finish.
He loved ease; he didn't like to struggle.
He was loaded with useless baggage.
He was the victim of the last man's advice.
He lacked the faculty of getting along with others.
He could not transmute his knowledge into power.
He tried to pick the flowers out of his occupation.
He knew a good deal, but could not make it practical.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. It is a dandy for burns." Those who live on farms are especially liable to many accidental cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied.
